REDEFINING UNDERWATER MISSIONS

Jalarov S11

Precision | Versatility | Reliability

EXPLORE THE DEPTHS WITH CONFIDENCE

Our ROV is engineered to deliver unparalleled performance in the most challenging underwater environments. From military operations to oceanic research, it's built for success.

Jalarov S11

Precision | Versatility | Reliability

CUTTING-EDGE TECHNOLOGI FOR EVERY MISSION

Sleek Design:
For Maneuverability and
navigate through danger

High-Performance Propulsion:
Endurance and speed for
extended operations.

Modular Payloads:
Customizable to suit
diverse objectives.

Development Roadmap

Phase 1:
Advanced sonar
Autonomous
AI Navigation

Phase 2:
Release and Retrieve
Station Multi Sensor
Camera

Phase 3:
Update Power for
Efficiency
Modular Payloads
