

**ADAPTABLE TO ANY CHALLENGE**

**Our VTOL drone excels in**

**Reconnaissance and Surveillance:** Real-time intelligence for strategic operations.

**Search and Rescue:** Rapid deployment in critical scenarios.

**Geo Mapping:** Efficient mapping in various areas.

**THE MOST COMPREHENSIVE IT SOLUTION PROVIDER IN INDONESIA**

# REVOLUTIONIZING AERIAL MISSIONS

**SORAZEN**

Precision | Adaptability | Innovation

# ELEVATE YOUR MISSION WITH CONFIDENCE

Our VTOL drone is designed to adapt to the most demanding operations. With its unique hybrid capabilities, it combines the flexibility of vertical takeoff with the efficiency of fixed-wing flight

# BUILT FOR PERFORMANCE ENGINEERED FOR PRECISION

**Hybrid Flight Mode:** Seamless transition between vertical and fixed-wing flight.

**AI-Driven Systems:** Intelligent navigation for autonomous missions.

**Modular Payload Options:** Tailored configurations for various mission profiles

## Development Roadmap

**Phase 1:** Extended Payload Electric system

**Phase 2:** Portable GCS Advance AI Navigation System

**Phase 3:** Update Power for Efficiency Mobile Charging Station
